

NITESH SAHU

AI Systems & Full-Stack Engineer

📍 Bengaluru, Karnataka — 📞 +91 9755175246 — ✉ iamniteshsahu20@gmail.com
🌐 Portfolio — 🌐 LinkedIn — 🐙 GitHub

Summary

AI Systems & Full-Stack Engineer specializing in production LLM infrastructure, real-time Voice AI, and autonomous multi-agent workflows. Hands-on experience in architecting full-stack software and fail-safe AI pipelines across fintech, legaltech, and regtech. Recognized across 5+ national hackathons for building production-grade software solutions.

Education

Chhattisgarh Swami Vivekanand Technical University

Bachelor of Technology in Computer Science

Bhilai, Chhattisgarh

2023–2027

Technical Skills

- **Languages:** Python, TypeScript, JavaScript, C++, SQL
- **AI & LLM Systems:** Multi-Agent Systems, RAG Pipelines, Real-Time Voice AI, Vector DBs
- **Frameworks & Tools:** LangGraph, FastAPI, React 19, Node.js, Qdrant, Gemini Live API, ElevenLabs
- **Databases & Storage:** PostgreSQL, MySQL, Firebase Firestore
- **Cloud & Web Security:** Docker, Google Cloud Platform, Git/GitHub, REST APIs, WebSockets

Experience

GDG Lead – GDG on Campus SSIPMT Raipur

Jul 2025–Present

- Led community of 500+ developers; organized technical workshops on Agentic AI, Cloud, and Full-Stack development.
- Led hands-on workshops on Gemini API, Firebase, React, and Google Cloud, mentoring students in AI application development and modern software engineering practices.

Full Stack Web Development Intern – ElevanceSkills

Jan 2026–Jun 2026

- Developed scalable RESTful APIs using Node.js/Express with database query optimization under high concurrent requests.
- Implemented JWT authentication, role-based access control (RBAC), and IP rate limiting middleware to secure backend API routes.
- Automated API integration testing pipelines using Postman and GitHub Actions to maintain code reliability across releases.

Web Developer Intern – Internship Studio

May 2024–Jul 2024

- Developed reusable React.js components and responsive layouts using Tailwind CSS, standardizing cross-browser UI architecture.

Projects

LawGPT – AI Legal Assistant

[GitHub](#) — [Live Demo](#)

- Built a legal research assistant using semantic chunking and vector search in Qdrant for processing 100+ page legal documents.
- Designed an MCP-inspired multi-agent architecture with FastAPI, Firebase, and Gemini for intent routing and context-aware responses.
- **Tech:** React, FastAPI, Python, Firebase, RAG, Qdrant, Google Gemini, PDF Processing.

Vaani AI – Real-Time Voice AI Agent

[GitHub](#) — [Live Demo](#)

- Architected a low-latency voice streaming pipeline using LiveKit WebSockets, Gemini Live API, and ElevenLabs TTS for audio I/O.
- Built transaction verification voice workflows with strict payload schema validation to handle multi-step merchant actions safely.
- **Tech:** React 19, FastAPI, Gemini Live API, LiveKit, Deepgram STT, ElevenLabs, WebSockets.

Finance Copilot – AI-Powered Equity Research Platform

[GitHub](#) — [Live Demo](#)

- Architected a multi-agent financial platform with an Orchestrator coordinating Bull/Bear/Judge agents to automate stock thesis analysis.
- Built resilient data ingestion pipelines (financial APIs, Yahoo Finance fallbacks) generating structured PDF/HTML equity reports.
- **Tech:** Vue.js, Tailwind CSS, FastAPI, Python, PydanticAI, OpenAI/Gemini, PostgreSQL, Docker, ReportLab.

RIO – Regulatory Intelligence Operating System

[GitHub](#) — [Live Demo](#)

- Built an autonomous multi-agent regulatory monitor using LangGraph, PostgreSQL, and Redis caching for asynchronous impact analysis.
- Implemented structured audit logging and explainable agent decision traces for enterprise compliance reporting.
- **Tech:** React, FastAPI, Python, LangGraph, Gemini, PostgreSQL, Docker, Redis.

Achievements

- **Winner** – Google Build & Blog Marathon 2025 (Selected 1st out of 200+ entries for technical article on LLM architectures)
- **Finalist** – Google Cloud Agentic AI Day 2025 (Recognized among Top 15 teams nationwide for enterprise agent architecture)
- **Finalist** – Paytm Hackathon 2026 (Shortlisted for building real-time merchant voice AI interface among 1,000+ teams)
- **Finalist** – East India Blockchain Hackathon, IIT Kharagpur (Engineered a decentralized peer-to-peer marketplace)
- **4th Rank** – ESG Invest Hackathon, IIT Bombay (Built and presented an ESG stock analysis platform to institutional judges)
